During my studies, I have gained a strong foundation in manufacturing processes, CAD design. I am particularly interested in manufacturing. My coursework and hands-on projects have enhanced my technical skills, and teamwork experience.

An internship at CAMRAIL would provide me with the opportunity to learn from industry experts and contribute to ongoing projects with enthusiasm and dedication. I am eager to develop my skills further and assist your team in optimizing manufacturing processes and improving operational efficiency.

I have attached my resume for your review. Thank you for your time and consideration. I look forward to your positive response.

Sincerely,

Tijono
